## Statement of Memory Volatility for DMC-4KZ-HD-DSP

### Volatile and non-volatile memory information/configuration:

| Type of Memory | Size of Memory | Purpose of this Memory | Data retention after power off Note 1 | User data Note 2 | How is data input to this memory? | How is memory protected from accidental overwrite by the user? (e.g. Password, Jumpers, Switch settings, Software) - Enter N/P if it can't be write protected. |
|----------------|----------------|------------------------|---------------------------------------|------------------|-----------------------------------|--|
| 1.EEPROM       | 128 kilo Bytes | Device Config          | No                                    | No               | Special software required         | No User Access   |
| 2.FLASH PROM   | 32 Mega Bytes  | Boot Code              | No                                    | No               | Factory Loaded                    | No User Access   |
| 3.FLASH PROM   | 32 Mega Bytes  | Firmware               | No                                    | No               | Factory Loaded                    | No User Access   |
| 4.FLASH PROM   | 2 Mega Bytes   | Firmware               | No                                    | No               | Special software required         | No User Access   |
| 5.SRAM         | 256 kilo Bytes | Temporary Storage      | No                                    | No               | Special software required         | No User Access   |
| 6.FLASH PROM   | 4 Mega Bytes   | Firmware               | No                                    | No               | Special software required         |  |
| 7.SDRAM        | 64 Mega Bits   | Temporary Storage      | No                                    | No               | Special software required         |  |

Note 1: Can user data, i.e. Audio, Video, documents (Word, pdf etc.) or spreadsheet retain after power down?

Note 2: Can user data, i.e. Audio or Video, documents (Word, pdf etc.) or spreadsheet be written to this memory during normal operation? User settings and operational parameters such as volume setting, IP address etc. are not considered User data on this declaration. Only Audio, Video, documents (Word, pdf etc.) or spreadsheet is considered user data.
