

SNS-BEAM1US1

Sonos® Beam Smart Soundbar, White

- *Plays music, TV, movies, and more*
- *Dialog clarity speech enhancement*
- *Easily pairs with your TV and remote*
- *Amazon® Alexa™ voice control*
- *AirPlay® compatible*
- *Designed for small to mid-sized rooms*
- *Easy integration with Crestron 3-Series® control systems and Crestron Home™ systems*

Sonos is the world's leading wireless Home Sound System that fills all the rooms in your home with high-quality streaming music, movies, and TV. Sonos streaming music players and wireless speakers fit cohesively with Crestron® home automation solutions, allowing touch screen access to a wide variety of streaming music services, and enabling audiophile-quality wireless audio throughout the home. To simplify purchasing and integration of our combined powerhouse technologies, Crestron is proud to offer the complete line of Sonos products, now available for purchase through Crestron dealers (in the United States only).

Upgrade your TV with our smallest, most advanced soundbar. Ideal for small to mid-sized rooms, Beam's compact and versatile design make it great for rooms where space is at a premium. Place Beam on your TV stand or purchase the custom designed wall mount to easily and securely hang it.

Beam is part of the Sonos sound system, so you can easily add more speakers to fill every room with sound. Create a home theater system when you wirelessly connect a pair of rear speakers and a Sub.

Premium Sound

Full-range woofers and tweeters harmonize low and high frequencies.

Speech Enhancement

Turn on dialog clarity speech enhancement and never miss another word, with specially tuned EQ that boosts frequencies in the human voice range, making dialog easier to hear.

Night Sound

Enjoy late night TV without ever waking the whole house.

HDMI® ARC

Grab audio from the connected display via a single HDMI cable and put it on the Sonos network to be distributed to different zones. Getting the audio from the display keeps signal path lengths for audio and video the same, eliminating latency-based sync issues.

Amazon® Alexa™

Use your voice to control Sonos.
