

UC-P10-T-C-HS-I

Crestron Flex 10 in. Video Desk Phone with Handset for Microsoft Teams® Software, International

- *Native Microsoft Teams® touch screen UX with simple operation and one-touch meeting joins*
- *Supports Teams® display upgrade*
- *Built-in camera for HD video calling*
- *Dedicated Microsoft Teams button*
- *Wideband HD voice quality*
- *Hearing aid compatible handset*
- *Wired or Bluetooth® enabled headset support*
- *Easy to specify and install – no custom design, programming, or software installation required*
- *Enterprise-grade security – connects and communicates securely over any enterprise or SMB network*
- *Network management and provisioning and system alerts through the XiO Cloud® service*

The Crestron Flex UC-P10-T-C-HS-I desk phone provides a premium video collaboration solution for use with the Microsoft Teams intelligent communications platform. It offers Full HD quality video and audio calling, capability to view and zoom the shared content, and full-duplex hands-free speakerphone capability in an elegant desktop design. It features a large 10 in. color touch screen display, built-in Full HD camera with privacy shutter, hearing aid compatible handset, and wired or Bluetooth® enabled headset support.^{1,2} Each phone can be synced with a Microsoft Teams account, with contacts, schedules, voicemails, and other preference settings appearing on the phone's touch screen.

Native Microsoft Teams® Rooms Experience

The UC-P10-T-C-HS-I desk phone provides a native Microsoft Teams IC software experience, with simple operation and one-touch meeting joins through a feature-rich touch screen. Onboard calendar, corporate directory access, and hot desking are provided. The UC-P10-T-C-HS-I works with a Microsoft Teams account and connects to an enterprise or SMB network implementing a cloud based Microsoft Teams deployment.

Supports Microsoft Teams® Display Upgrade

The UC-P10-T-C-HS-I Microsoft Teams desk phone can be upgraded to Microsoft Teams display³.

In addition to Microsoft Teams supported features, Microsoft Teams display offers unique features such as:

- **Dedicated displays for Teams** allow users to access all core Teams features.
- **Ambient personalizable display** allows users to see important activities and notifications without context-switching on their primary work device.
- **Leave a note on lock screen** allows users to check audio, video, and text notes left by guests.

To learn more, see [Microsoft Teams displays](#).

NOTES:

- The UC-P10-T-C-HS-I desk phone cannot be reverted to a Microsoft Teams phone once upgraded to Microsoft Teams display.
- The handset and capacitive Microsoft Teams button are not supported by Microsoft Teams display software. Remove the handset after upgrading the desk phone to Microsoft Teams display.

Intuitive User Interface

The large 10 in. HD touch screen makes the desk phone easy to use. The capacitive buttons provide the essential controls for managing a call in progress, muting or adjusting volume, switching to hands-free or headset mode¹, and a dedicated Teams button to launch the home screen or calls app. The intuitive touch screen UI employs a look and layout similar to Microsoft Teams and Office 365® software, so users can move effortlessly between using a phone and personal computer at their desk and other Microsoft Teams based Crestron UC conferencing solutions in a meeting room.

High-Definition Video Conferencing

The built-in camera with a wide-angle 96° diagonal field of view, Full HD 1080p video resolution, 2 MP CMOS sensor, and advanced video processing ensures a clear video image free from light or noise artifacts.

UC-P10-T-C-HS-I

Crestron Flex 10 in. Video Desk Phone with Handset for Microsoft Teams® Software, International

High-Definition Audio Conferencing

The UC-P10-T-C-HS-I desk phone facilitates conversations with highly intelligible voice clarity, whether speaking privately on the handset or a headset¹, or conferencing using the hands-free speakerphone function. High-performance AEC technology achieves transparent full-duplex performance free of distracting echo or noise. Wideband audio codec support allows for full-spectrum, bidirectional voice communication. The handset is hearing aid compatible to ensure an optimal experience for individuals with hearing impairment.

Hot Desking

For organizations employing shared workstations or offices, workers can log in at any UC-P10-T-C-HS-I desk phone using their personal Microsoft Teams account. Once signed in, the individual's presence status, contacts, voicemail, and meeting schedule immediately sync with their account for a seamless user experience.

Enterprise-Grade Security

Crestron Flex is an enterprise-grade solution, engineered in partnership with Microsoft to integrate seamlessly into any Microsoft Teams Rooms software deployment. Crestron Flex is ideally equipped for mass deployment throughout any sized facility.

Easy Provisioning and Device Management

The XiO Cloud service is an IoT cloud based provisioning service that enables installers and IT managers to easily deploy and manage thousands of devices.
