

Shade Measuring Worksheet

Single Roller and In-Line Coupled Shades

Date: _____

Project: _____

Name: _____

- A Outside Mount B2B
- B Shade Height
- C Total Width
- D Inside Mount B2B
- E Jamb Depth
- F Inner Height

NOTE: For the inside mount (B2B) dimension, measure across the top, center, and bottom of the window, and then enter the smallest dimension. For the inner height dimension, measure the left, center, and right window height, and then enter the smallest value.

Sketch the room or window for obstructions and other details.

INSTRUCTIONS:

- Inspect the window and the area around the window for obstructions sticking out (knobs, sills, etc.) that may prevent the smooth travel of the shade.
- Verify the frame, sill, and header are level, and then measure all designations.
- Check the appropriate check boxes and enter the measurements.
- For in-line coupled shades use a new sheet for each band. Be sure to indicate the band location below.
- Use additional sheets as needed.

Building: _____ Floor: _____

Room: _____ Window/Door: _____
