

Manufacturer: <b>Crestron</b>
Model Number: PA06861-1
Description: DMB-4k-I-C: DM-MD64x64/128x128 HDBase-T INPUT BLADE
Technical Point of contact: Chris Choi
Title: Senior Electronics Engineer
Phone: (201) 750-7004 x12331
Email address: <a href="mailto:cchoi@crestron.com">cchoi@crestron.com</a>
Date (M/D/YYYY): 01/10/2018

## Statement of Memory Volatility for DMB-4K-I-C

### Volatile and non-volatile memory information/configuration:

Type of Memory	Size of Memory	Purpose of this Memory	Data retention after power off. Note 1	User data Note 2	How is data input to this memory?	How is memory protected from accidental overwrite by the user? (e.g. Password, Jumpers, Switch settings, Software) - Enter N/P if it can't be write protected.
1.FLASH PROM (U101)	4 Mega Bits	Device Config	Yes	No	Special software required	Software
2.FLASH PROM (U140)	4 Mega Bits	Device Config	Yes	No	Special software required	Software
3.FLASH PROM (U146)	4 Mega Bits	Device Config	Yes	No	Special software required	Software
4.FLASH PROM (U151)	4 Mega Bits	Device Config	Yes	No	Special software required	Software
5.FLASH PROM (U156)	4 Mega Bits	Device Config	Yes	No	Special software required	Software
6.FLASH PROM (U171)	4 Mega Bits	Device Config	Yes	No	Special software required	Software
7.FLASH PROM (U176)	4 Mega Bits	Device Config	Yes	No	Special software required	Software

(User is defined as end user who ultimately operates this device)

Note 1: Can user data, i.e. Audio, Video, documents (Word, pdf etc.) or spreadsheet be retained after power down?

Note 2: Can user data, i.e. Audio, Video, documents (Word, pdf etc.) or spreadsheet be written to this memory during normal operation? User settings and operational parameters such as volume setting, IP address etc. are not considered User data on this declaration. Only Audio, Video, documents (Word, pdf etc.) or spreadsheet is considered user data.
