

BEAUTIFUL PERFORMANCE

Crestron motorized shades and drapery systems transform any room into a more spectacular space. Our stunning designer fabrics, elegant hardware and world-class technology ensure you find the perfect shading solution for every space in your home. Control your shades with ease from keypads, touch screens and your favorite mobile devices. Better yet, create one-touch lifestyle scenes integrating your lights, shades, thermostats and more.

STYLE THAT DRAWS ATTENTION

The Crestron shade fabric collections are second to none, providing hundreds of designer inspired colors and patterns to select from. You're sure to find the perfect complement to any design, from elegant and traditional to modern and sophisticated, Crestron provides you unparalleled beauty and style.

THE MOST ADVANCED SHADE MOTORS

Thanks to our exclusive Digital QMT® shade motors, Crestron Roller Shades provide precision control and ultra-quiet performance backed by a limited lifetime warranty. Reduce glare without disrupting a little one's nap, or wake up naturally as your shades rise in silence to welcome the morning sun.

QMT motors are powerful yet compact, enabling elegant, unobtrusive installation options that complement your style. Best of all, Crestron shades are designed to work flawlessly with all of the technology in your home.

GOOD MORNING

Enjoy your morning coffee in total comfort. With the touch of a button the shades rise to let in the perfect amount of sun, and the lights come on just a hint to help you read. Never mind the weather outside, Crestron makes sure the temperature inside is right where you like it.

PERFECT CONTROL

Crestron gives you the power to personalize your home automation experience with scenes. Instead of controlling your shades and other technology individually, each scene is a set of coordinated system actions that happen at the touch of a button, when you enter a room, or at a set time. With Crestron, you can create lighting and shading scenes for day and night that fit your lifestyle to perfection.

DINNER TIME

Set the scene for a romantic meal or a festive family get-together. With just a tap of your smart phone or Apple Watch®, the shades silently adjust as the lights dim to create the perfect ambiance.

In the background, your streaming music service begins to play.

ROLLER SHADES

Crestron Roller Shades are ideal for a flat clean look. They are available in widths up to 14 feet to meet the requirements of any project. Combine sheer fabric for glare control and blackout fabric for privacy in the same window by choosing our convenient dual-roll configurations.

Our beautiful roller shades are also available in manual control versions, providing you with additional flexibility to maximize your budget. Manual roller shades can be upgraded to motorized control in minutes at any time.

HORIZONTAL SHEERS

An elegant Crestron shading solution that features horizontal fabric vanes floating between two layers of sheer, knitted fabric adding flexible natural light control to any room or space.

KEY FEATURES

- | Available in sizes up to 8' wide by 8' tall
- | Can tilt open, closed or fully roll up to provide an unobstructed view
- | Light filtering (translucent) fabrics available in 25 different colors/patterns
- | Large 2.5" vanes provide approximately 1.25" view-through
- | Uses QMT® 3 Series motor for silent yet robust operation
- | Compatible with all 3 Series Architectural Shade Hardware
- | Uses special fascia with fabric insert that matches vanes
- | Limited lifetime warranty

CABLE-GUIDED SHADES

A cable-guided tracking solution for QMT5 Series shading systems to prevent the shade fabric from swaying and enable professional installation on angled windows. Compatible with inside, outside, and pocket mounted roller shades up to approximately 10 feet wide or 10 feet long, and accommodates windows pitched inwardly or outwardly at up to 20 degrees from vertical.

BATTERY-POWERED SHADES

With a wireless construction that allows for seamless installation and operation, battery-powered shades are an innovative, convenient way to cover home windows. Remodels. Hard-to-reach windows. Replacing manual, corded products to enhance child and pet safety. Adding a motorized solution without in-the-wall wiring. The battery-powered possibilities are endless — and easy to achieve.

The Crestron D-cell battery shade system is powered by eight easily swappable batteries, features our near-silent Digital QMT® shade motors, and works seamlessly with Crestron Home® OS for the ultimate in control.

When it comes to hardware, battery-powered shades are available with Décor 3 Series and Architectural 3 Series design elements — so they look as sophisticated as they act.

FABRIC OPTIONS AND CHARACTERISTICS

Crestron fabric options help you effectively manage the sun's heat and glare to create interior spaces that are exceptionally comfortable as well as beautiful. What's more, selecting the optimum shade type for each room can lead to dramatic energy savings.

SHEER FABRICS

Transmits light so that objects or images are seen through the weave.

Benefits

- UV protection
- Natural light and glare control
- Reduced solar heat gain

LIGHT FILTERING FABRICS

Transmits diffused light, eliminating the perception of distinct images.

Benefits

- UV protection
- Natural light and glare control
- Reduced solar heat gain
- Adds privacy

BLACKOUT FABRICS

Provides advanced light blockage and privacy.

Benefits

- Ultimate light and glare control
- Dramatic reduction in solar heat gain

Our collections utilize fabrics that are as durable as they are beautiful. All fabrics have been tested and certified by independent laboratories.

THE PERFECT FIT FOR YOUR STYLE

Crestron Shading Solutions offer a range of discreet installation options to blend seamlessly into your interior design.

HIDDEN POCKETS

For a clean, modern look, hide the rollers in a recessed pocket in the ceiling. This is the ultimate option for shades that literally disappear when not in use, leaving a pristine view from your windows. If this sounds like your style, it is important to plan ahead with your builder, as pockets need to be created during construction.

POCKET CUTAWAY VIEW

FASCIA

Crestron shades are available with metal fascia in a range of colors. Or feel free to have your builder create beautiful custom fascia to conceal shade rollers.

DRAPERY TRACKS

Crestron Drapery Track Systems work with pinch pleat and ripplefold styles on straight tracks using Crestron drapery motors. Custom bends and curved drapery tracks are also available for spaces with special design requirements.

HARDWARE AND FINISHES

We offer elegant hardware options for every installation. Choose from a variety of colors and designer finishes for the perfect style in any room.
