

The UC Engine Assembly (UC-BRKT-150-ASSY) simplifies installation of a Crestron Flex UC system, providing all the necessary components connected and mounted on a single VESA® compliant mounting bracket. The bracket mounts behind a display device in a conference room. The UC-BRKT-150-ASSY is intended for use with Crestron Flex conference systems. For more information, visit [www.crestron.com/flex](http://www.crestron.com/flex).

## Installation

The wall bracket can be mounted to VESA compliant display devices or to a wall or other building structure. Anchors and screws are also supplied for installation on walls 3/8 in. to 3/4 in. thickness.

**CAUTION:** The bracket assembly has cables and devices that are connected at the factory. **DO NOT DISCONNECT ANY DEVICES OR CABLES THAT ARE ALREADY CONNECTED.**

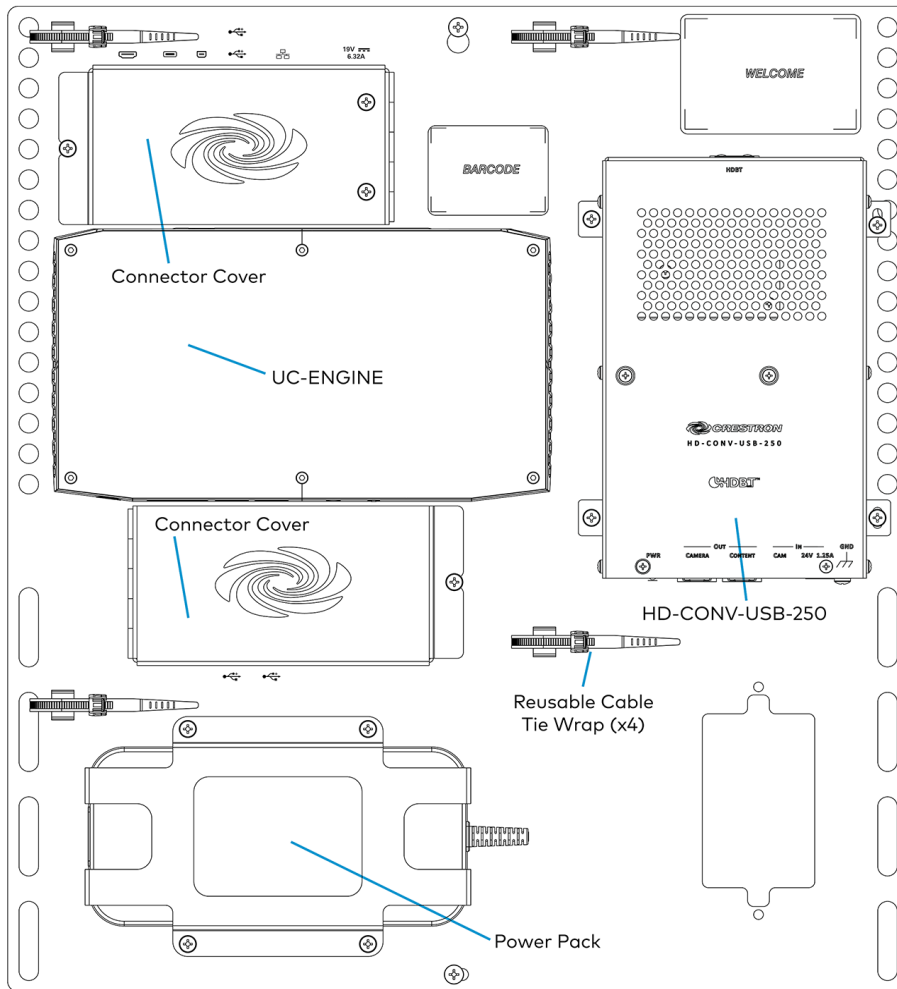

### NOTES:

- The integrated cable tie wraps are reusable. Take care to avoid damage to the cable tie wraps.
- The wall bracket assembly includes an opening and pass through screw holes for placement over a single gang US electrical wall box that can be covered by a decorative wall plate. If the wall plate opening will be positioned over an electrical wall box, longer screws will be needed to secure the decorative wall plate to the electrical box. Do not attempt to secure the wall bracket assembly with the wall plate opening screws.

## In the Box

- 1 UC-BRKT-150-ASSY UC Engine Assembly
- 2 Anchor, Drywall, Plastic, 3/8 in. x 1/2 in. (2052565)
- 1 Bit, Spanner, #6 (2052847)
- 1 Key, Anchor (4529654)
- 2 Screw, 6-32 x 3/8 in., Undercut Head, Spanner (2052846)
- 2 Screw, 8-AB x 1-1/2 in., Pan Head, Combo (2052567)
- 1 Power Cord (2053985)
- 1 Power Pack (2045870)
- 4 Tie Wrap (2047935)

## Open the Connector Covers

Remove connector covers prior to making UC-ENGINE connections on the UC-BRKT-150-ASSY.

## Secure Connector Covers

After completing UC Engine connections, secure the connector covers using a #1 Phillips head screwdriver to replace the screws.
