

# TS-SMK

## Swivel Mount Kit for CCS-UC-300

The TS-SMK is a low-profile swivel mount accessory for the Crestron® SR Next Generation Room System for Skype® for Business (model [CCS-UC-300](#)). It provides a means for permanently mounting the device to a tabletop surface while retaining the ability to rotate it for optimal positioning. The swivel range can be customized using optional limit screws, with a maximum of 330-degree rotation allowed.

The swivel mount may be installed on any flat, level surface with a thickness of 1 inch (25 mm) minimum to 1 3/8 inch (35 mm) maximum. Wiring is routed through the center of the swivel mount, passing beneath the mounting surface for a completely hidden appearance.
