Provide a simple, scalable, and consistent user experience

Crestron® Workplace Technology Solutions come ready-to-deploy and include everything you need to provide a consistent presentation, collaboration, and conferencing experience for all your meeting spaces. Every kit features Crestron AirMedia® wireless presentation capability and provides each room with the same on-display welcome screen and touch screen UI. All Crestron Workplace Technology Solutions are built on the same platform with enterprise-grade network management and security, so every space can be monitored, managed, and controlled securely from a single dashboard.[1]

Dual-display presentation conference room solution

The CE-3000 kit features the Crestron DMPS3-4K-350-C DigitalMedia™ Presentation System with built-in AirMedia. This solution empowers larger meetings in dual-display presentation and video conferencing rooms. Crestron integrates and controls your favorite codec and makes it easy to book rooms, start meetings, share content, collaborate, and control the entire room from a single, intuitive touch screen interface. XiO Cloud provisioning makes it easier to deploy and manage across thousands of rooms.[1]

What's included:
