Width	4.00 in. (102 mm)
Depth	3.00 in. (76 mm)

NOTE: Dimensions shown are for the fully assembled mounting hardware excluding the touch screen.

The Crestron® TS-770/1070-SMK is a low-profile swivel mount accessory for TS-770 and TS-1070 series tabletop touch screens. The TS-770/1070-SMK provides a means for permanently mounting the touch screen to a tabletop surface while retaining the ability to rotate it for optimal positioning. The swivel range can be customized using optional limiting screws, with a maximum 330-degree rotation permitted.

The swivel mount may be installed on any flat, level surface with a thickness of 1 in. (25 mm) minimum to 1-3/8 in. (35 mm) maximum. Cables are routed through the center of the swivel mount, passing beneath the mounting surface for a completely hidden appearance.
