Sonos One™ (GEN 2) Wireless Speaker with Amazon® Alexa Built-in™ software, White

- *Start and control your music with your voice - Amazon Alexa Built-in*
- *Play songs, check news and traffic, manage smart devices and enjoy all those other helpful Amazon Alexa® skills using a single Sonos® speaker*
- *Combine voice with the Sonos app to manage all your music in one place: Amazon Music, Spotify®, Apple Music®, Internet radio and hundreds of other streaming services*
- *Can function as part of a wireless stereo or surround system with other Sonos Home Sound system speakers*
- *Enjoy surprisingly rich, room-filling sound from a compact smart speaker*
- *Seamless all-white color with smooth matte finish*
- *Easy integration with Crestron 3-Series® control systems and Crestron Home™ systems*

Sonos is the world's leading wireless Home Sound System that fills all the rooms in your home with high-quality streaming music, movies, and TV. Sonos streaming music players and wireless speakers fit cohesively with Crestron® home automation solutions, allowing touch screen access to a wide variety of streaming music services, and enabling audiophile-quality wireless audio throughout the home. To simplify purchasing and integration of our combined powerhouse technologies, Crestron is proud to offer the complete line of Sonos products, now available for purchase through Crestron dealers (in the United States only).

Sonos One blends great sound with Amazon Alexa, the easy-to-use voice service, for hands-free control of your music and more. Use your voice to play songs while you cook. Tell Alexa to turn the volume up while you're in the shower. You can even request a lullaby, out loud, when you're tucking in the kids.

It can be used for mono playback in a single zone, for pairing with another One SL to create a stereo zone, or for pairing with a surround zone to create a home theater setup.

For complete details on Sonos One and other Sonos products, please visit <http://www.sonos.com>.
