

TSR-302-BTP

Battery Pack for TSR-302

DO Remove the Battery

To remove the existing TSR-302-BTP from a TSR-302, perform the following procedure:

1. Remove the battery compartment cover on the rear of the TSR-302 by using two thumbs and gently pressing in the direction of the arrow shown in the following photograph.

2. Place the touch screen remote on a clean, soft surface, with the screen side down.

DO Check the Box

QTY	PRODUCT	PART NUM.
1	TSR-302-BTP Battery Pack for TSR-302	2039523

3. Lift the old TSR-302-BTP out of the battery compartment, as shown in the following photograph.

DO Install the New Battery

After completing the removal of the old TSR-302-BTP from the touch screen remote, perform the following procedure to install the TSR302-BTP in a TSR-302:

1. Place the TSR-302-BTP in the battery compartment, oriented as in the previous photograph.
2. Reattach the battery compartment cover by pressing down lightly on the locking tab while sliding the cover into place.

DO Charge the Battery

Install the TSR-302-BTP in the TSR-302 touch screen remote and mount it in an ac-powered TSR-302-DS Table Dock.

DO Store the Battery

The TSR-302-BTP can be stored in a temperate, dry place (removed from the touch screen remote and table dock) for up to six months without significant irreversible degradation of its performance. The self-discharge rate is a function of temperature and internal resistance. High-temperature storage reduces charge retention. Best results occur when the TSR-302-BTP is stored at a temperature of 32° to 95°F (0° to 35°C).

NOTE: The TSR-302-BTP should be 30% to 50% charged when put into storage.

DO Dispose of the Battery

NOTE: The TSR-302-BTP contains a lithium polymer battery. When the unit can no longer retain a charge, it must be recycled or disposed of properly. Follow local ordinances and regulations for disposal.

The battery must be recycled. Deliver the battery to an appropriate recycling facility.
