Sonos is the world's leading wireless Home Sound System that fills all the rooms in your home with high-quality streaming music, movies, and TV. Sonos streaming music players and wireless speakers fit cohesively with Crestron® home automation solutions, allowing touch screen access to a wide variety of streaming music services, and enabling audiophile-quality wireless audio throughout the home. To simplify purchasing and integration of our combined powerhouse technologies, Crestron is proud to offer the complete line of Sonos products, now available for purchase through Crestron dealers (in the United States only).

Hear and feel the difference with Sonos Sub, the wireless subwoofer for deep bass. Experience lower lows when you connect Sub to your Sonos system over a Wi-Fi® network. Place Sub upright or lay it on its side and enjoy pure bass with no vibration or rattle.

### **No Buzz, Just Bass**

Two force-canceling drivers at the center of Sub eliminate vibration and rattle so you get powerful bass without any distortion.

### **Made to Be Seen and Heard**

The versatile design features a slim, sculptural shape and high-gloss finish. Stand Sub upright or lay it on its side.

### **Lower Lows and Increased Clarity**

Sub takes over the lowest frequencies, enhancing the midrange playback from paired Sonos speakers so you experience fuller, more detailed sound.

### **More Immersive Entertainment**

Connect Sub to Sonos Arc or Sonos Beam, and enjoy TV, movies, and video games like never before. Add a pair of One SL™ surrounds for an immersive home theater experience.
