## Sonos® Amp, Black

- *High-fidelity performance with 125 Watts per channel*
- *Powers bookshelf, floor-standing, in-wall, and in-ceiling speakers*
- *Subwoofer output with user-adjustable crossover*
- *Sonos app and AirPlay® control*
- *Connects to a TV to create the ultimate entertainment system*
- *Built to last and improve over time*
- *Easy integration with Crestron 3-Series® control systems and Crestron Home™ systems*

Sonos is the world's leading wireless Home Sound System that fills all the rooms in your home with high-quality streaming music, movies, and TV. Sonos streaming music players and wireless speakers fit cohesively with Crestron® home automation solutions, allowing touch screen access to a wide variety of streaming music services, and enabling audiophile-quality wireless audio throughout the home. To simplify purchasing and integration of our combined powerhouse technologies, Crestron is proud to offer the complete line of Sonos products, now available for purchase through Crestron dealers (in the United States only).

Power your entertainment with the versatile Sonos Amp. As a member of the Sonos sound system, the Amp easily connects to other Sonos equipment or your speakers, turntable, or TV. The compact design allows the Amp to blend in with your home or stack in a rack.

### 125 watts per channel

Get high-fidelity sound for even the most demanding speakers

### HDMI® ARC

Grab audio from the connected display via a single HDMI cable and put it on the Sonos network to be distributed to different zones. Getting the audio from the display keeps signal path lengths for audio and video the same, eliminating latency-based sync issues.

### AirPlay® software feature

Send the sound from your iPhone® or iPad® mobile digital device to your home sound system.

### Take the sound outside

Power your outdoor speakers and easily expand your home sound system to the backyard.
