## DESCRIPTION

The ST-109 is an infrared (IR) to Electrohome adapter for the SmarTouch STS. Its purpose is to control a high-frequency Electrohome projector via the SmarTouch STS. Data + (S) and Data - (G) signals are transferred from the control system to the projector. Connect the 3.5 mm jack labeled FROM IR to one of the IR OUT ports of the control processor (ST-CP). The other 3.5 mm jack labeled ELECTROHOME connects to the Electrohome projector. On the unit's back, there are two Dual Lock fastener strips which permit the unit to be stored on a vertical or sloping surface. The unit weighs 0.425 pounds (0.193 kilograms).
