

## Crestron Flex Tabletop Large Room Audio Conference System

The UC-M70-UA Crestron Flex tabletop conferencing system provides a large room audio conference solution for open-platform UC applications.

### In the Box

#### Tabletop Conference Device

- 1 Tabletop Conference Device (6508227)
- 1 Cable, CAT5e, RJ-45 - RJ-45, 12 ft (3.7 m) (2033988)
- 1 Cable Retention Plate (2047908)
- 3 Tie Wrap (2047935)

#### Additional Items

- 1 Microphone pod (6508084)
- 1 Cable, USB 2.0, A - Micro-B, 6 ft (1.8 m) (6510947)
- 1 Power supply (6500187)

## Install the Cable Retention Plate

The included cable retention plate provides tie-down points for cables that connect to the Crestron® conference device.

Remove the adhesive backing from the cable retention plate and install it on the underside of the conference device as shown in the following diagram. Ensure the cable retention plate is firmly attached before securing cables.

**CAUTION:** When turning over the device, place the device on a soft surface to avoid damage.

**NOTE:** If a swivel mount kit ([CCS-UCA-SMK](#)) is to be used, use the cable retention bracket included with the swivel mount kit as described in the [CCS-UCA-SMK DO Guide](#) (Doc. 7882).

### Connect

Make system connections as shown below.

-  **CAT5e**  
12 ft CAT5e cable
-  **Microphone**  
12 ft cable
-  **Power**  
Power supply
-  **USB**  
6 ft USB 2.0 A - Micro-B cable

## Crestron Flex Tabletop Large Room Audio Conference System

## Bundle Cables

Bundle the cables together and use a provided tie wrap to secure the bundle to one of the positions on the cable retention plate at the rear of the device. Avoid bundling power and data cables together.

Insert the included USB cable into the respective cable channel as labeled on the underside of the conference device and as shown in the following image.

## NOTES:

- When routing the USB cable through the channel out of the front of the device, the cable does not need to be bundled. If the system design requires routing the USB cable through the rear of the device, the cable should be bundled and secured to the cable retention plate.
- When using a swivel mount kit, do not route the USB cable through the swivel tube.

## Configure

Configure the device using the web interface. To access the web interface, enter the device's IP address into a web browser. Select the gear icon in the upper right-hand corner of the screen and enter the username ("admin") and password ("admin") when prompted.

**NOTE:** To find the device's IP address, tap the information icon on the device's home screen.

For detailed configuration information, refer to the [CCS-UC-1 Product Manual](#) (Doc. 7844).
