Government Support Services

Effortless technology for smooth-running operations

The leading manufacturer of AV control and automation systems for 40 years, Crestron offers a full range of JITC-certified solutions for:

> DIGITAL SIGNAL SWITCHING AND DISTRIBUTION

> VIDEO CONFERENCING

> WIRED AND WIRELESS PRESENTATION

> TOUCH SCREEN ROOM CONTROL

> HD MULTI-IMAGE DISPLAY

Additionally, our centralized monitoring and management systems enable you to track energy usage, remotely troubleshoot devices, and control all the systems throughout your organization on one user-friendly platform.

Every branch of the U.S. Armed Services and scores of federal government agencies rely on Crestron technology for every type of space and application: command and control centers; network operation centers; classrooms; field command operations; and executive crisis and communications.

JITC-certified products

Crestron DigitalMedia™ technology, control systems, and touch screens are approved and certified by the Joint Interoperability Test Command (JITC) of the U.S. Department of Defense Information Systems Agency (DISA). This range of Crestron technologies earned security rankings that far exceed minimum protocol standards. That means you can safely deploy Crestron systems in your most secure information network infrastructures.

Crestron Government Markets Team and GSS Program

The mission of our Crestron Government Markets Team is to ensure your mission is always accomplished. They have the expertise and experience to understand the requirements, expectations, and challenges that face federal agencies, field command operations, and all branches of the U.S. military. Your dedicated Crestron team will guide you through the design, specification, and procurement stages to ensure seamless, worry-free implementation every time.

Crestron Government Support Services (GSS) provides our government and military partners access to ongoing technical training and high-level 24x7x365 support from our award-winning True Blue Support Team.

For questions and any further information, please contact the Crestron Government Markets Team.
