

Isys® 2.8" Handheld Wireless Touch Screen w/infiNET EX®

- > Sleek and ergonomic handheld design
- > Elegant gloss black finish
- > Instant-Waking® behavior
- > Works like an IR remote — with all the benefits of 2-way RF!
- > Ultra-reliable infiNET EX® wireless communications
- > 75 feet RF range (typical)
- > Easy range extension using infiNET EX expanders
- > Built-in speaker for customizable WAV file audio feedback
- > Widely-spaced tactile pushbuttons
- > White EL backlit button text
- > 2.8" active matrix color touch screen display
- > High display brightness and contrast
- > Wide 150 degrees viewing angle
- > Customizable 16-bit color graphics
- > 240 x 320 resolution
- > Dynamic text capability
- > Long-lasting LiPo rechargeable battery pack
- > Low-profile tabletop docking station included

The MTX-3 Handheld Wireless Touch Screen from Crestron® delivers an exceptional remote control for home theater, home automation, and AV presentation, marrying style and ergonomics with rock-solid wireless performance and extensive customizability. Its sleek form factor is easy to hold, with large tactile pushbuttons, electroluminescent backlighting, and a fully customizable color touch screen for a wireless control solution that's both intuitive and fun to use.

Featuring 2-way wireless communications, the MTX-3 offers seamless interaction with AV and environmental systems, providing true feedback of all your settings, and displaying metadata information for all your digital media. Whether watching TV, choosing a movie or music title, adjusting room temperature and lighting, or checking the security system, the MTX-3 affords a user experience only Crestron can deliver.

infiNET EX® Wireless Technology

Our groundbreaking infiNET EX wireless technology provides ultra-reliable 2-way communications throughout a residence or commercial structure utilizing a 2.4 GHz mesh network. A complete infiNET EX network uses the lighting dimmers and other devices throughout the structure as wireless relay stations, each receiving and passing on wireless commands to the central gateway. Every device that is added to the network effectively increases the range, strength, and reliability of the entire network by providing multiple redundant signal paths, ensuring that every button press is executed instantly and consistently.

Of course, the MTX-3 can also communicate directly with the gateway if no other infiNET EX devices are installed. Up to six MTX-3s can be assigned to a single gateway. Wireless range for each MTX-3 is 75 feet (23 meters) typical indoors, which can easily be extended using infiNET EX Expanders.^[1]

Instant-Waking®

To ensure the most transparent user experience possible, the MTX-3 has been engineered to wake instantly at the press of a button or touch of the touch screen. Button presses are sent immediately, just like an IR remote but with none of IR's limitations. So spontaneous actions like muting the audio, pausing the video, or changing the channel can be executed on-the-fly with just a single button press.

Extended Battery Life

Instant-Waking also allows the MTX-3 to be put to sleep within seconds of putting it down, helping to extend its battery life for several days of typical usage on a single charge. Even under continuous use at full brightness, the MTX-3 lasts an incredible 5 hours! Its fast-charging, field-replaceable Lithium Polymer battery pack delivers optimum power in a very small, lightweight package.

Tactile Pushbuttons with Backlit Text

A complement of tactile pushbuttons makes for a very intuitive user interface, providing easy access to everything needed for watching TV and movies, listening to music, and controlling the entire room. Large, widely-spaced buttons accommodate hands and fingers of all sizes, minimizing the chance of an unintended button press. Electroluminescent backlit button text affords excellent legibility for use in a darkened room.

The pushbuttons are comprised of 17 buttons designated for the most common functions, plus a 5-way navigation pad, 3 context-assignable "hard keys" beneath the touch screen, a thumb-operated "More" button for advancing through the available touch screen pages, and a system power button. Every button on the MTX-3 is fully programmable to allow precisely the control desired, whether simply adjusting audio volume and flipping through channels, controlling a DVR or DVD player, navigating onscreen setup menus, or operating a pan/tilt camera.

MTX-3 Isys® 2.8" Handheld Wireless Touch Screen w/infiNET EX®

Handheld Touch Screen Control

Custom touch screen versatility is afforded through a brilliant 2.8" active-matrix touch screen displaying stunning 16-bit color. Onboard graphics and dynamic text capability enable the display of all kinds of useful data and alluring eye candy—from channel preset icons—to room temperature and lighting levels—to digital media playlists complete with metadata. Full-motion animations, multimode objects, PNG translucency, and transition effects enhance the palette for creating GUIs that are both eye-catching and easy to use.

Audio Feedback

Customized WAV files can be loaded on the MTX-3 to add another dimension to its touch screen graphics using personalized sounds, button feedback, and voice prompts.

TableTop Docking Station

Placed on its stylish docking station^[2], the MTX-3 sits at-the-ready, able to be used as a stationary tabletop controller while charging.

SPECIFICATIONS

Touch Screen Display

Display Type: TFT active matrix color LCD
Size: 2.8 inch (72 mm) diagonal
Aspect Ratio: 3:4 QVGA (portrait orientation)
Resolution: 240 x 320 pixels
Brightness: 350 nits (cd/m²) typical
Contrast: 500:1 typical
Color Depth: 16-bit, 64k colors
Viewing Angle: ±75° horizontal, +75/-55° vertical
Illumination: LED Backlit
Touch Screen: Resistive membrane

Buttons & Indicators

Power (top): (1) programmable pushbutton, performs hardware reset if held for >10 seconds
Hard Keys: (3) programmable pushbuttons below touch screen
Functions: (15) programmable pushbuttons with white EL backlit labeling for GUIDE, HOME, LIST, MUTE, INFO, LAST, MENU, KEYPAD, EXIT, and icons for Rewind, Play, Forward, Stop, Pause, Record
Volume: (1) programmable rocker button with white EL backlit Volume 'Raise' and 'Lower' icons
Navigation Pad: (5) programmable pushbuttons comprising a 5-way thumbpad (4-way navigation plus "enter")
Up/Down: (1) programmable rocker button with white EL backlit 'Up' and 'Down' arrows
More (right side): (1) programmable thumb-operated side button
Charge: (1) Green LED, indicates charging status when docked

Memory

SDRAM: 128 MB
Flash: 256 MB
Maximum Project Size: 20 MB

Graphics Engine

16-bit non-palette graphics; 65,536 colors; multi-mode objects; dynamic text; PNG translucency; full-motion (60 fps) animation; subpage transition effects

Wireless Communication

RF Transceiver: infiNET EX® 2-way RF, 2.4 GHz ISM Channels 11-26 (2400 to 2483.5 MHz), IEEE 802.15.4 compliant
Range (typical): 75 feet (23 meters) to the gateway or nearest mesh network device^[3], subject to site-specific conditions
Gateway: Requires a CEN-RFGW-EX or MC3 infiNET EX Gateway^[1]

Audio

Features: Built-in speaker
Audio Feedback: WAV format, 8 & 16 bit PCM, mono & stereo, 8 – 44.1 kHz sampling rates

MTX-3 Isys® 2.8" Handheld Wireless Touch Screen w/infiNET EX®

Connectors

USB (bottom): (1) Mini Type AB female behind battery cover;
USB computer console port, for installer use only

Battery

Battery Type: Lithium Polymer, 3.7 Volt, 1000 mAh,
model TPMC-3X-BTP included
Usage per Charge: 5 hours continuous at full brightness
Charging Time: 2 hours
Cycle Life: >300 cycles (80% capacity)

Power Requirements

Power Pack: 1.2 Amps @ 5 Volts DC;
100-240 Volts AC, 50/60 Hz power pack, model PW-0510WU included

Note: Power connection made via the MTX-3-DS docking station/charger^[2]

Environmental

Temperature: 32° to 104°F (0° to 40°C)
Humidity: 10% to 90% RH (non-condensing)
Heat Dissipation: 20 BTU/Hr

Enclosure

Construction: Injection-molded plastic, integral docking station port

Dimensions

Height: 1.04 in (27 mm);
2.22 in (57 mm) docked
Width: 2.55 in (65 mm);
2.99 in (76 mm) docked
Depth: 7.94 in (202 mm);
7.84 in (199 mm) docked

Weight

6.6 oz (185 g) including battery

MODELS & ACCESSORIES

Available Models

MTX-3: Isys® 2.8" Handheld Wireless Touch Screen w/infiNET EX®

Included Accessories

MTX-3-DS: TableTop Docking Station (Qty. 1 included)
PW-0510WU: Wall Mount Power Pack 5VDC, 1.2A, Universal
(Qty. 1 included)
TPMC-3X-BTP: Battery Pack (Qty. 1 included)

Available Accessories

CEN-RFGW-EX: infiNET EX® Wireless Gateway
MC3: 3-Series Control system™ w/infiNET EX® Wireless Gateway
CLW-EXPEX-GD-W-T: infiNET EX® Wireless Expander

Notes:

1. Requires [CEN-RFGW-EX](#) or [MC3](#) infiNET EX gateway, which supports up to 100 infiNET EX network devices inclusive of up to 6 MTX-3 remotes. Additionally, up to 5 [CLW-EXPEX](#) infiNET EX Expanders may be added to the network for extended range. All gateways and expanders are sold separately.
2. Item included. See separate product specifications for additional details.
3. Any infiNET EX mesh network device that provides expander functionality will effectively extend the range of the wireless network beyond the initial range of the gateway. Battery-powered infiNET EX devices do not provide expander functionality. A dedicated infiNET EX Wireless Expander, model CLW-EXPEX is also available.
