

TSS-752-MUMK

Mullion Mount Kit for TSS-752

Ideal for modern offices, this mounting accessory provides a solution for installing a [TSS-752](#) Room Scheduling Touch Screen to the mullion of an interior glass wall, window, or partition. It attaches to the left or right inside surface of any vertical, hollow metallic mullion with a minimum depth of 1-5/8 inches (41 mm) from the front of the mullion to the window glass behind (or approximately 3 inches (75 mm) for a completely flush installation).

Wiring to the touch screen should be run inside the mullion. The result is a clean, professional appearance, whether viewed from the front of the touch screen, or from behind looking through the glass at the back of the complete assembly.

SPECIFICATIONS

Dimensions

With touch screen device installed:

Height: 4.75 in (121 mm)
