

TTK-4SM

TableTop Kit for TPMC-4SM(D) & TPCS-4SM(D)

The TTK-4SM provides a stylish and convenient tabletop enclosure for a TPMC-4SM or TPMC-4SMD Touch Screen. It is also compatible with TPCS-4SM and TPCS-4SMD Touch Screen Control Systems. The touch screen device is angled when installed in the enclosure. The complete assembly may be placed on any flat, level surface, with the option to attach it permanently to the surface using screws.

An optional swivel mount accessory (SMK-4SM) is available separately, providing a means for permanently mounting the enclosure while retaining the ability to rotate it for optimal positioning. The swivel range can be customized using optional limit screws, with a maximum of 330-degree rotation allowed. The swivel mount may be installed on any flat table, desk, or counter top surface with a thickness of 1 inch (25 mm) minimum to 1 3/8 inch (35 mm) maximum.

Wiring may be passed out the rear of the enclosure through a grommet and strain relief, or routed through the bottom for a very clean, cordless appearance. The rear wire opening can accommodate a single cable up to 1/4 inch (6 mm) diameter. The bottom opening measures 29/32 inch (23 mm) diameter, while the swivel mount^[1] can accommodate a bundle of wires up to 11/16 inch (17 mm) diameter.
