

Intelligent Communications for the Modern Workplace

Microsoft Teams

A photograph of three people in a modern office setting. A man in a white shirt stands behind a woman in a dark blue shirt, who is leaning over a wooden table. Another woman with blonde hair is seated at the table, working on a black Microsoft Surface tablet. A silver laptop is also on the table. There are two white coffee cups on saucers and a grey pen. The background features a large window and a green plant.

A changing modern workplace

Mobile and social

45% use social tools at work

4x as many devices per user

Diverse and global

5 generations together in the workforce

72% of workers will be working remotely by 2020

Team-based and collaborative

2x as many teams

80% of employee time is spent collaborating

Microsoft Teams

The hub for teamwork
in Microsoft 365

Communicate
through chat, meetings & calls

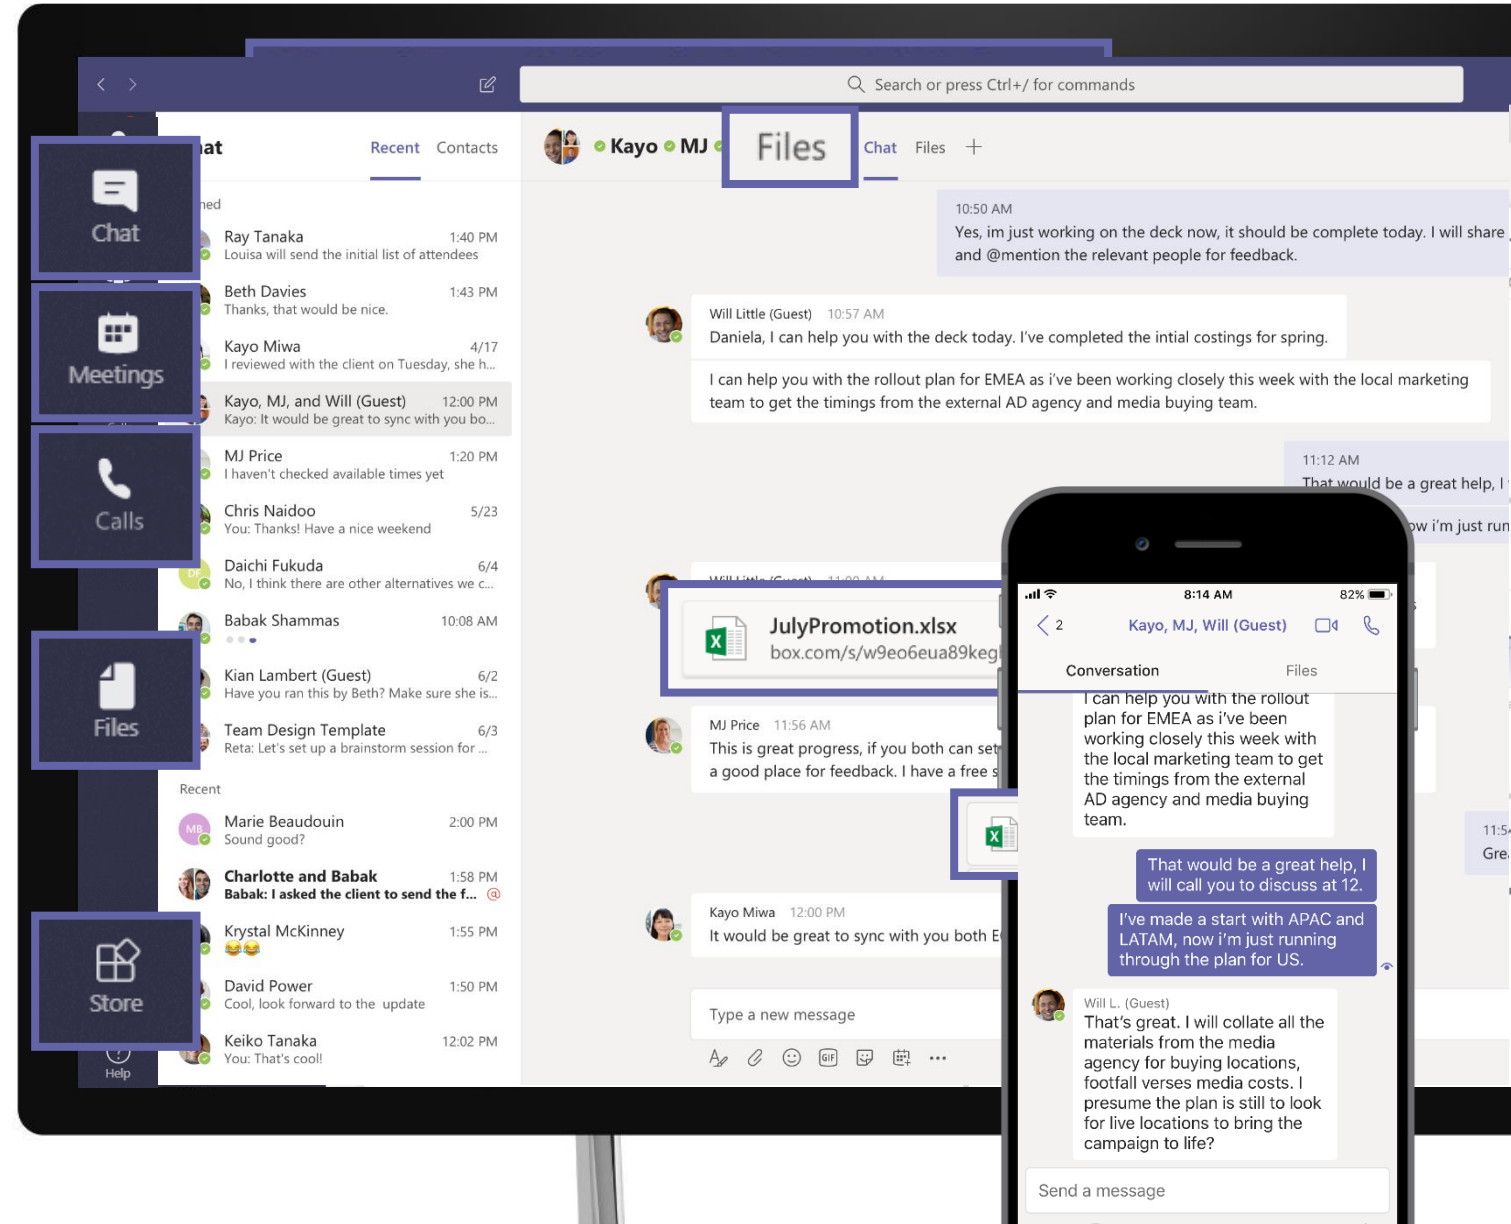

Collaborate
with deeply integrated Office 365 apps

Customize & extend
with 3rd party apps, processes, and devices

Work with confidence
enterprise level security, compliance, and manageability

Communicate through meetings

Communicate from anywhere with a complete meeting solution

Stay connected with a **complete meeting solution** supporting sharing, video and audio conferencing

Engage in **all types of meetings**—spontaneous, scheduled, external and large 1:manys

Get work done faster by having **context and content at your fingertips**

Join from a **range of platforms and devices**, including desktop, browser, mobile, and meeting room devices

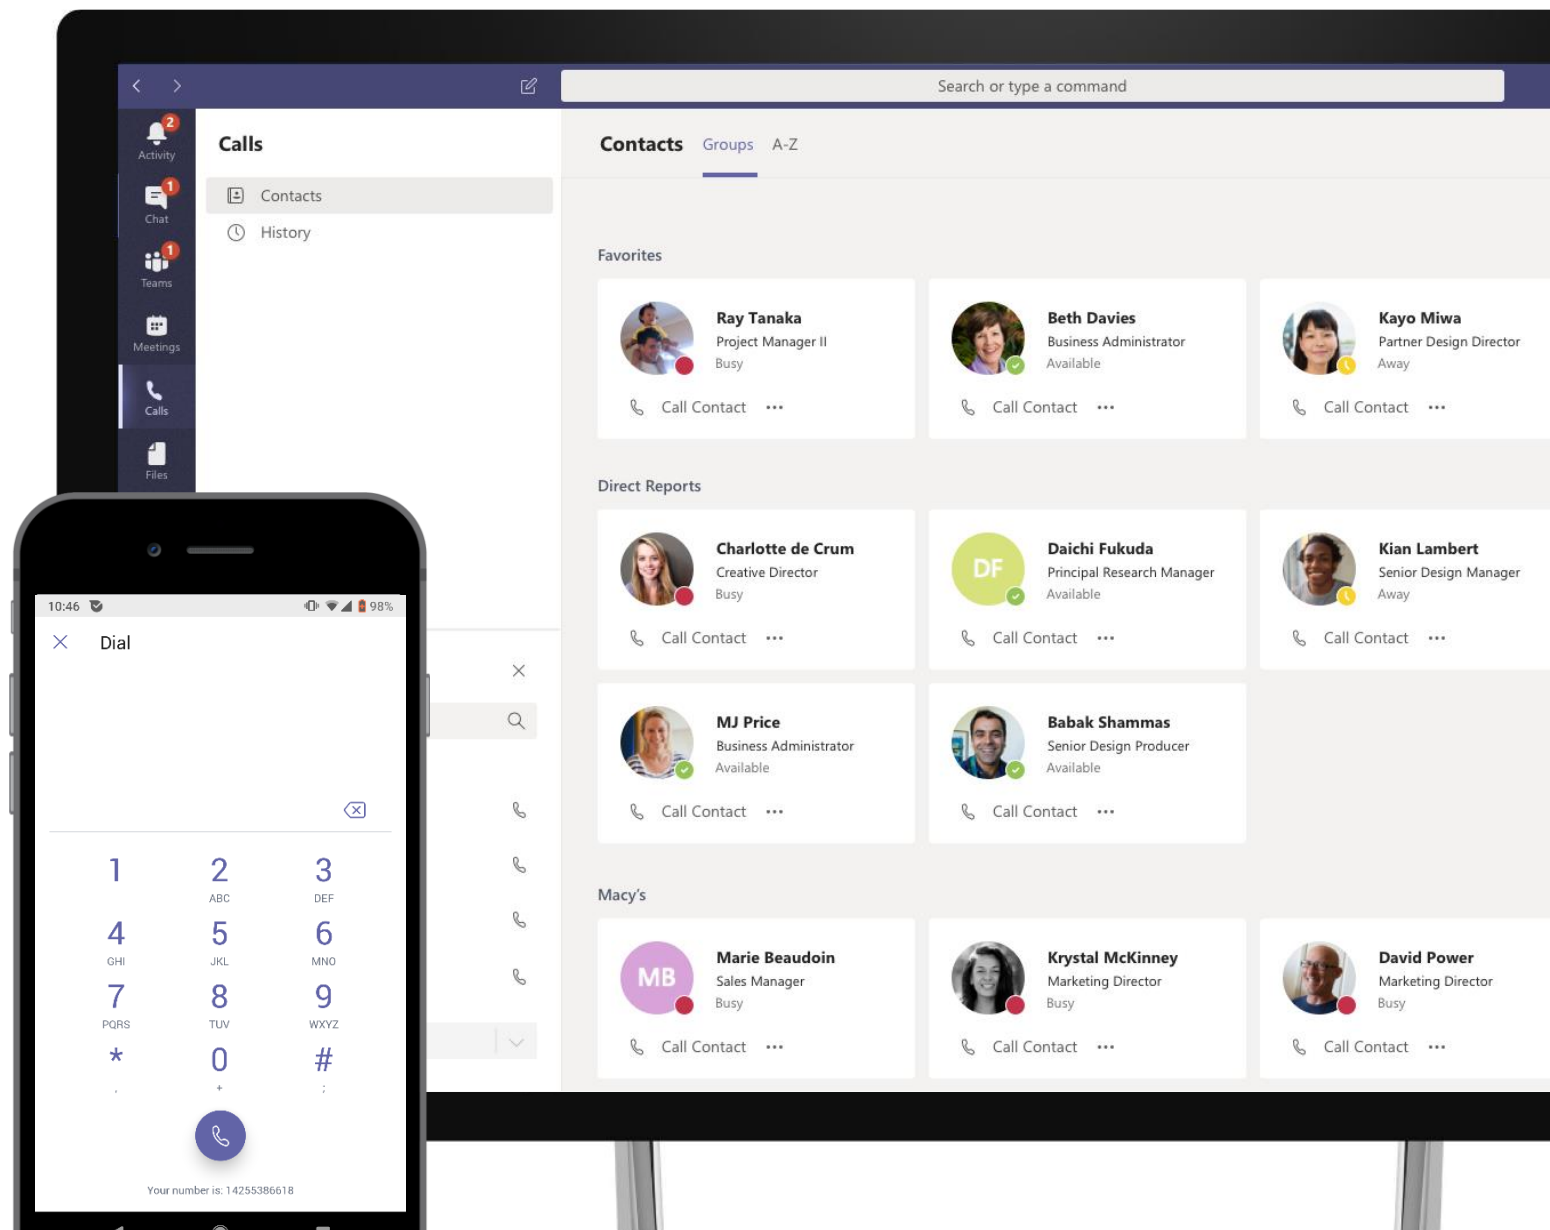

Communicate through calling

Connect with anyone through Phone System, Calling Plans, or Direct Routing

Provide software, service and phone lines for each user with **Microsoft Calling Plans**

Keep your voice trunks and configure as needed with **Microsoft Direct Routing**

Leverage **key calling features**, including voicemail, delegation, auto attendant, & call quality reporting
